

Norway top two!

Jonas Nermoen and Magnus Krog, both from Norway, became number one and number two in the COC-NC race at Høydalsmo this Saturday.

In the third place we find Tomaz Druml from Austria, a small second behind Magnus.

The winner, Jonas Nermoen has always enjoyed competing in Høydalsmo, - he always gets good results and have many good memories from here. To

prepare himself for this competition, this morning he taught about his last competition and all the fun he had then. This give him the right mood for competing. After the jump, who gave him the 9.th position for the cross country race, he tought; "Wictory!". He knew Magnus and Tomaz and many other good guys were chasing behind him, and maybe he was fearing Ole Martin Storlien the most, but he stood the line and caught the wictory ower ten seconds before Magnus and Tomaz.

About tomorrows race he means everything can happen, but with Magnus back in shape and Tomaz close behind, it will be close race. It will hurt like hell and he needs good skis, a good body and have to stay focused.

Magnus competed on home ground, and had over one and a half minute to catch up. After the first round his arms and legs felt good and he gave hundred percent to try for the top place. He thanks Ottar Olav Lid for the good skies he had.

The weather for tomorrow will give the competitors tough times, but as he says; "the harder it gets – the better for us tough guys"

Tomaz has a long list of good results this season, and we wonder why he's not in Lahti. He tells us he has to work with his jumping

shape, and the smaller hills is best for this. It's his first time in Høydalsmo and he means it's perfect to compete here. He is impressed by the amount of small kids who is skiing here, and he means the COC-NC race is a good race.

Tomaz also mean the weather conditions tomorrow will be in favor of the best guys, and will make him push harder the tougher it gets.

Tomaz is heading for Rowaniemi for the last competition, and he will try hard in the time to come to become in better jumping shape.

The Norwegian means that the three fine guys who entered the victory podium tonight all were Norwegian, because Tomaz girlfriend is Norwegian, although she is moving to Austria the next season to study sports journalism.

Tomaz hopes he is competing in the WM in Oslo.
